

AUTOCAD 2D **INTERMEDIATE** **MODULE**

One Day Training Course in Intermediate 2D Construction

Objective of Course

This course teaches the more advanced aspects of 2D draughting techniques. It is entirely practical with a hands-on-approach and you will have your own professional CAD networked computer. You will be given your own bound set of course notes.

Agenda

Advanced 2D Construction Commands

- Text, Dimensioning and Dimension Styles,
Blocks, WBlocks, and External References
Directory Structure and File Utilities

Attributes

Model Space and Layouts

- Tilemode, Multiple Viewports Using MView, Hideplot, Scaling with ZoomXP.
User Co-ordinate Systems

The above may be varied to suit client's preferences and requirements.

Who Should Attend?

Clients who have taken our AutoCAD 2D Basic Module. Existing AutoCAD Users who can produce 2D drawings

Qualifications

At the end of the course you will be presented with a TDS Certificate. You will also have covered the majority of the City & Guilds 4351 syllabus.
